ESPITE the dark forebodings of the magnates a short time back. the baseball season of 1919 seems due for an auspicious opening. In the words of the young man with a six and a quarter straw Burns Lands Special Event Beat the Internationals never completely happy. While Sunday baseball is not yet actually permitted in New York, it requires only action by the Board of Aldermen. This seems certain this week, and it seems assured that the Yankees will play the first Sunday game at the Polo Grounds with the Athletics next Sunday. Many of the minor league clubs have become bankrupt, and there is the resultant scarcity of material for the big leagues. Few mitte new players of great promise appeared at the big league training camps promptly at noon. this year. Sunday is the big baseball day with the minors, and they need the receipts from the Sunday games to exist.

War Brought About Liberality

THE passage of the bill to make Sunday baseball optional is-as one of its opponents declared-due to the spirit of liberality which has risen since the war. Reformers declare that this liberality of thought is a menace to the morals and welfare of the present generation. This is a matter of personal opinion. One professional reform lobbyist declared that Sunday baseball would result in the Prussianization of New York and the Belgianization of New Jersey, with the possible Turkeyfying of Connecticut, or something like that. It was an easy slide from the bleachers on a Sunday afternoon right straight to perdition.

The fight for Sunday baseball has been waged at every session of the Legislature for years back. This time the personnel of the delegation and the logic it used bewildered the opponents of Sunday sports and impressed the Legislature so favorably that the bill was passed and signed before its opponents could recover from their amazement. It was the soldier influence, supported by some keen-witted women poli-A. E. F. in Paris ticians, that brought about the victory.
